

PALAWAN GOLF COURSE AND ECOPARK RESORTS

The Palawan Golf Course and Eco Park Resorts is a proposed integrated tourism and leisure development in Barangay Apurawan, Aborlan, Palawan. The project envisions a destination that combines golf, eco-tourism, nature conservation, wellness, hospitality, and resort living within a unified development.

Project Components

[Learn More](#)

The proposed development is centered on three major components:

1. International-Standard 18-Hole Golf Course

A premium golf destination designed to accommodate golf tourism, tournaments, corporate events, and recreational activities. Supporting facilities may include a clubhouse, golf academy, driving range, practice greens, golf-view villas, wellness areas, and hospitality facilities.

2. Eco Park and Nature Conservation Area

A nature-oriented component designed to promote environmental conservation, education, and outdoor recreation. Proposed features include botanical gardens, native plant nurseries, nature trails, viewing decks, birdwatching areas, eco-discovery facilities, wellness gardens, and environmental education activities.

3. Luxury HALAL Beach Resort

A premium beachfront hospitality development designed to serve family-oriented and Muslim-friendly tourism. Proposed facilities include luxury villas, family accommodations, wellness and spa facilities, swimming pools, dining areas, event spaces, and prayer facilities, supported by halal-certified and Muslim-friendly services.

Sustainability and Environmental Approach

- The project incorporates environmental considerations through the proposed use of native landscaping, tree retention, habitat restoration, rainwater harvesting, water-efficient systems, treated wastewater for irrigation, stormwater management, solar-ready infrastructure, waste segregation, composting, and reduction of single-use plastics.

✓ **Tourism and Economic Potential**

- The development aims to establish a high-value tourism destination in Palawan by combining golf tourism, eco-tourism, wellness, beachfront recreation, and hospitality. Its proposed revenue streams include accommodations, golf fees and memberships, events and tournaments, real estate, food and beverage, wellness services, eco-park activities, and retail opportunities.

✓ **Development Considerations**

- Before implementation, the proposed development requires appropriate technical and environmental assessments, including site, geotechnical, hydrological, environmental, disaster-risk, biodiversity, and access considerations. Detailed engineering plans, specifications, cost estimates, and other construction documents would be required as the project progresses toward implementation.

Overall Vision

The Palawan Golf Course and Eco Park Resorts envisions a sustainable, high-end tourism destination that integrates golf, nature, wellness, beachfront hospitality, environmental conservation, and investment opportunities. Through this integrated approach, the project seeks to create a distinctive tourism experience while supporting environmental stewardship and local economic development.
